

ATRCA *Spring* Bulletin

07 April 2018

1. The Volunteer team is very excited to send out the invitation flyer for our upcoming Celebration in Charlotte on July 21st/22nd weekend.
2. It is a lot of commitment and effort on part of the team, especially to keep working on the logistics of organizing the 1st ever national level ATRCA event to celebrate the 1st Anniversary and the Inauguration of our Association.
3. As part of this Event organization the Volunteer team has also spent countless hours in designing and creating our website www.ATRCA.org, with all in-house development, saving us lot of money as well. We are using this occasion for initial launch of our brand new website. Special thanks to Ravi Yeruva who led the development of the site spending lot of his time and talent.
4. To extend our history of catholic faith and culture from our generation to the next and going forward lets rebuild a new generational foundations here outside of our own limited boundaries of India. In that regard one of our goals on our ATRCA's agenda is to help install regional feasts across the country, in the same way as the Village feasts in India, which are the best ways to bring people together to celebrate our Catholic faith more intimately with our families. On that front, the Charlotte team has taken the initiative by coming together to establish their local feast and to conduct the installation of that feast along with the Inauguration of our ATRC Association that they are hosting in their town.
5. As part of the event's agenda the organizers are also planning cultural programs to get everybody from across the country involved with performances and sports to make it even a more joyful celebration. Please contact us at contact@ATRCA.org to get your children involved in the celebrations.
6. Now it's everybody's turn to make our very 1st nationwide celebration and the Inauguration of ATRC Association a grand success by whatever we can do to help with prayers, attendance, participation and financial support.
7. Look out for the event invite and lets all get excited and make it happen!

Thank you,

- ATRCA Volunteer Team
